Limited Edition HO Scale Car Kits

Virginian & Ohio 36' Wooden Boxcar Kits

In 1923, the Miami Valley Railroad, a subsidiary of the Virginian & Ohio, ordered 50 boxcars from American Car and Foundry. These cars had an inside length of 36' 5", an inside height of 8' 4", an inside width of 8' 6", and a capacity of 2580 cubic feet. They featured Hutchinson steel roofs, 7/7 inverted rib steel ends, seven-foot wooden doors, Andrews trucks, and K-style air brakes. The cars were delivered with MVR reporting marks.

The V&O also ordered 34 of these cars, which were delivered in V&O livery and carried V&O reporting marks. Some of these cars were rebuilt at the West Carrollton shops in July, 1940 in the buildup to World War II. The last of these cars continued in service until late 1952. V&O Tool Car No. 435 was rebuilt at West Carrollton in December, 1946. It continued in service on the V&O into the late 1960s.

Manufactured in the USA by Accurail, these Limited Edition HO Scale Car Kits were designed by W. Allen McClelland and produced with his permission by Cincinnati Division 7, Mid Central Region, NMRA, Inc. Four different cars are offered:

- Red MVR #109 dated 1923
- Red V&O #3352 dated 1923
- Red V&O #3357 dated 1940
- Gray V&O MOW #435
