

What is NMRAx?

NMRAx is a new virtual/online NMRA experience bringing some of the NMRA member benefits directly to your home, live, on your computer or mobile device. A small team of volunteers thought live broadcasting of clinics via social media would not only be a good way to reach and keep members engaged during the current Covid-19 pandemic, but also reach those members who are not able to attend in-person meetings and events for various reasons.

NMRAx events are now broadcast live simultaneously on the [NMRA Facebook page](#) and [YouTube channel](#), allowing members without Facebook accounts to view the clinics. Heck, you don't even need a Facebook account to view the live broadcasts on the NMRA Facebook page (or view any content on our [Cincinnati Division 7 Facebook page](#) for that matter) – you just need a link to the content or page. Links to the various Facebook pages, groups, websites, and YouTube channel are listed below for your convenience.

Multiple NMRAx events have been broadcast since April 2020, including 2 episodes of “Ask the Master Model Railroader®” and GatewayX (our first ever virtual national convention!). By the end of July 2020, NMRAx had streamed over 200 hours of clinic presentations and layout visits, all delivered right to the comfort and safety of members' homes.

All NMRAx events are included on the [NMRA Event Calendar](#) as well as announced via the NMRA email list, eBulletin, Turntable and/or social media channels. This information will also be shared with our members via the [Cincinnati Division 7 Facebook page](#), [website events page](#) and/or email list.

UPCOMING NMRAx EVENTS:

- August 2020 – National Leadership Roundtable (*details TBA*)
- September 26, 2020 – 12:00pm-11:59pm EDT (*details TBA*)
